neural network & Jinde Cao

neural network Jinde Cao's as Topics & Researchers

Topic Trends

Play 2003 2008 tag

- exponential stability
- time delay
- linear matrix inequality
- numerical example
- stability criterion

exponential stability(8)
time delay(8)
linear matrix inequality(7)
numerical example(7)
stability criterion(7)
global asymptotic stability(6)
robust stability(6)

Researcher Information

Name: Jinde Cao
Affiliation: southeast university
Link: DBLP | Spock.com | Wikipedia | Facebook | Google

Topics:

1. neural network	31%
2. cellular neural network	19%
3. global exponential stability	18%
4. time delay	18%
5. periodic solution	14%

Topic Hierarchy

BT Keyword: neural network [more]

- neural network
 - abductive neural network
 - analog neural network
 - analogue neural network
 - applied neural network
 - artificial neural network
 - associative neural network
 - asymmetric neural network
 - backpropagation neural network
 - bam neural network
 - binary neural network
 - biological neural network

Sort by top results

Stability analysis of Cohen-Grossberg neural networks with both time varying and continuously distributed delays
